

## My Story

Name: Natalie Borley

Group: Senior

Section: Bell Lyre

Hello my name is Natalie Borley; I have been in band for some time now (1 year and 4 months) since I joined the band I have made loads of friends, I have met many different people who are really nice to me. It's a good experience I get to do lots of carnivals which wears me out, but that's what I love about it. I love the band, we get to do different things each week, if I wasn't a friend of the Ekins I wouldn't have thought of being in a band. I'm glad I have joined because it gets me out of the house. I'm currently on Bells and I enjoy playing them, I love to learn different songs each week. I didn't think that I would like the band but I got it wrong, I absolutely love it. We are currently doing a film with Phoenix Arts and I'm enjoying it so far. I just can't wait till it's all finished. Ever since I have joined the band I have loved every minute of it, also if I weren't in the band I would be lost with out my friends. I thought to my self that within a couple of months of being in Brigade I wouldn't like but I got it wrong and I love it. I know I haven't been in the band a long time but I think I'm going to be in it for a lifetime. I've have realised that everyone means a lot to me and they have helped me over the years.
