Jordan's Judgement

Dear Chris

I am writing to thank you for your kind invitation to the above premiere. I thoroughly enjoyed the screening of both 'Jordan's Judgement' and 'Knocked Up'.

It was a real pleasure to see the children and young people rewarded for their efforts with the star treatment they received. It was certainly a memorable day for them and the children from Newlands who were part of this have not stopped talking about the experience.

It is truly inspirational to see what can be achieved by a group of children and young people. The professional quality of the films demonstrates the talents that lie within our community. The children involved have benefitted enormously from their work on the film. Their confidence and self esteem as well as their acting and film making skills have all developed and I do hope that we shall see more of these talents in the years ahead.

I would also like to thank you for arranging for the film to be shown to the whole school community. The children enjoyed seeing familiar faces in a film which carries a strong message to all children.

Once again thank you and please pass on my congratulations and best wishes to all the band members.

Yours Sincerely
